

Partners for Brain Injury

Nebraska Department of Health and Human Services
Nebraska Brain Injury Advisory Council
Brain Injury Alliance of Nebraska

You have received this letter because a Nebraska health care facility reported you were diagnosed with a brain or head injury, or a concussion. If you have received this letter in error, we apologize.

Partners for Brain Injury works to connect Nebraskans who have recently experienced such an injury with information on appropriate services and supports. Every brain injury or concussion is unique. Sometimes it is difficult to know if the symptoms you may be experiencing are related to a recent injury.

The enclosed brochure will help you take the next steps if you are experiencing symptoms of a brain injury or concussion. It includes a checklist to share with your physician or health care professional. Together you can determine the best course of action. The brochure also includes contact information for a Brain Injury Alliance of Nebraska Resource Facilitator who is available to answer your questions about brain injury and refer you to helpful programs and services.

Take the next step to find information and support and contact us today.

Sincerely,

Ming Qu

Administrator

Public Health Support Unit, Division of Public Health,
Nebraska Department of Health and Human Services

Letters and enclosures are available in alternative languages upon request from a Brain Injury Resource Facilitator. Call (844) 423-2463.

Cartas y documentos adjuntos están disponibles en español a petición de un Especialista de Recursos de Lesiones Cerebrales. Llame al (844) 423-2463.

Nebraska law requires physicians, psychologists, hospitals, and rehabilitation centers to report brain or head injuries to the Nebraska Department of Health and Human Services (DHHS). It also requires DHHS to send information to assist each reported individual in accessing necessary and appropriate services related to the injury. Neb. Rev. Stat. § 81-662.
