

Nebraska's Brain Injury State Plan

The Nebraska Brain Injury State Plan was developed by the Nebraska Department of Education, Office of Vocational Rehabilitation (Nebraska VR) and the statewide Brain Injury Advisory Council (BIAC). The Plan serves as a guide to improve the state's system of services and support for people with brain injury and their families. To see the State Plan goals and activities for 2023 – 2024, visit the BIAC website at: <https://braininjury.nebraska.gov/about/policies-services>

Priority 1

Access to Services

This priority area aims to ensure individuals with brain injury can access resources and services for their recovery journey, no matter what their geographic location and financial situation.

Priority 2

Build the Voice

This priority area aims to promote opportunities for individuals with brain injury, as well as their family members, to advocate for policies, programs and service improvement and encourage involvement with the BIAC.

Priority 3

Connect to Resources

This priority area aims to improve and enhance the coordination of services and resources in the state to more effectively connect individuals with brain injury to resources and opportunities.

Priority 4

Shape Policy

This priority area aims to strengthen the state infrastructure for addressing brain injury and ensure entities like the Nebraska Legislature are aware of the gaps and impacts related to brain injury.

Priority 5

Increase Public Awareness

This priority area aims to increase the public understanding of brain injury to help minimize and eliminate misconceptions.
